WORK EXPERIENCE

.NET Developer | TavtaSoft Pvt. Lmt.   *May 2024- Jun 2024*

- Developed a full-stack web application to facilitate Community support and engagement.
- The platform encompasses user management, mission creation and management.
- Utilized LINQ for efficient data querying and manipulation using technologies - .NET,Entity Framework Core, Angular, and PostgreSQL.

Full Stack Intern | Archon India Pvt. Lmt , Vadodara   *Nov 2023- Jan 2024*

- Developed a SRI, Dahod full-stack web application which provides facilities for various sports, including badminton, table tennis, basketball, billiards, and snooker.
- Additionally, the Institute is a popular venue for family events such as marriages, engagements, birthdays, retirements, and other functions.

Web Developer Intern | Archon India Pvt. Lmt , Vadodara   *May 2023- Jun 2023*

- Engineered a robust web-based TEACH Scholarship Application, optimizing student application processes and enhancing efficiency by 30%.
- Leveraged Core PHP, MySQL, HTML, CSS, and JavaScript for dynamic profile management and payment tracking.

SKILLS

- **Front End :** JavaScript, HTML, CSS, Bootstrap,React JS
- **Back End :** PHP, .NET, MySQL, ADO.NET, PostgreSQL,Android
- **Programming Languages :** C#, JAVA, C++, C, Python, Arduino Uno
- **Additional Technical Prowess :** OOPs, Data Structures, Operating System, DBMS, Computer Networks
- **Tools :** Postman, Git/GitHub, VS Code, Visual Studio, Android Studio

---

PROJECTS

Event Management System - [PHP |MySQL | HTML| CSS| JS| Bootstrap]   **GitHub Repo**

- Engineered an advanced Web-Based Event Management System, streamlining event booking, instrument reservations, and end-to-end logistics management (lighting, stage, sound system).
- Significantly boosted operational efficiency and resource allocation.

Social Network API - [React | .NET WebAPI with MVC]   **GitHub Repo**

- This project developed a social networking platform that enables users to register, login, create, and share articles.
- Users can publish articles on various topics. The platform incorporates a robust content moderation system where all user registrations and posts are subject to administrative approval.

Water Level Monitoring System - [Arduino Uno | NodeMCU ESP8266]   **GitHub Repo**

- Engineered a cutting-edge Water Level Monitoring System, significantly enhancing water management by integrating Ultrasonic Sensors, Relay Modules, and NodeMCU ESP8266.
- The system provides precise water level tracking in reservoirs and tanks, optimizing resource usage and minimizing wastage

Email Spam Classifier ML Model - [Python | HTML | CSS | Flask]   **Project Link**

Deployed the Spam Email Classifier ML model to predict whether an email is spam or not. Its user-friendly interface.

EDUCATION

Computer Engineering |Birla Vishwakarma Mahavidyalaya   **Sep 2022-Present**

B.E., Computer Engineering | CPI : 7.45

The Maharaja Sayajirao University, Vadodara, India.   **Aug 2019-May 2022**

Diploma, Computer Engineering | 87.27%

ACHIEVEMENTS / CERTIFICATIONS

- Attained the **3rd rank**, placing within the top **1%** of graduates in *Maharaja Sayajirao University's Diploma* in *Computer Engineering* program.
- *FreeCodeCamp* Certified **Responsive Web Design.**
